🌱 How to Care for Your Seed Bomb! 🌱

1. **Let it dry** – Leave your seed bomb in a sunny spot for 1-2 days so it hardens.
1. **Find a good spot** – Choose a sunny, open area like a garden, schoolyard, or backyard.
2. **Plant or drop it** – If planting, press it **lightly** into the soil. If dropping, make sure it's on soft ground where it can grow.
3. **Wait for rain** – The best time to plant is just before it rains. No rain? Give it a light water every few days.
4. **Be patient & watch it grow!** 🌼 Your everlasting daisies will start to sprout in a few weeks. Keep the area clear of weeds so they can grow strong!

***Small actions make a big difference,
thank you for helping care for Country!***
